

Ordinance – Private Storm Drain Inlet Retrofitting

Ordinance # 2010- 858– Private Storm Drain Inlet Retrofitting Ordinance

SECTION I. Purpose:

An ordinance requiring the retrofitting of existing storm drain inlets which are in direct contact with repaving, repairing, reconstruction, or resurfacing or alterations of facilities on private property, to prevent the discharge of solids and floatables (such as plastic bottles, cans, food wrappers and other litter) to the municipal separate storm sewer system(s) operated by the **Borough of Pine Hill** so as to protect public health, safety and welfare, and to prescribe penalties for the failure to comply.

SECTION II. Definitions:

For the purpose of this ordinance, the following terms, phrases, words, and their derivations shall have the meanings stated herein unless their use in the text of this Chapter clearly demonstrates a different meaning. When not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word "shall" is always mandatory and not merely directory.

- a. Municipal separate storm sewer system (MS4)– a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, manmade channels, or storm drains) that is owned or operated by [insert name of municipality] or other public body, and is designed and used for collecting and conveying stormwater. **NOTE:** In municipalities with combined sewer systems, add the following: "MS4s do not include combined sewer systems, which are sewer systems that are designed to carry sanitary sewage at all times and to collect and transport stormwater from streets and other sources."
- b. Person – any individual, corporation, company, partnership, firm, association, or political subdivision of this State subject to municipal jurisdiction.
- c. Storm drain inlet- an opening in a storm drain used to collect stormwater runoff and includes, but is not limited to, a grate inlet, curb-opening inlet, slotted inlet, and combination inlet.
- d. Waters of the State – means the ocean and its estuaries, all springs, streams and bodies of surface or ground water, whether natural or artificial, within the boundaries of the State of New Jersey or subject to its jurisdiction.

SECTION III. Prohibited Conduct:

No person in control of private property (except a residential lot with one single family house) shall authorize the repaving, repairing (excluding the repair of individual potholes),

Following the release of the report, the Commission on the Status of Women (CSW) has been established in the form of a permanent body, which will meet annually in New York and Geneva. The Commission will be composed of 18 members, nine from each of the two regions. The Commission will be responsible for monitoring and reporting on the progress of the implementation of the Platform for Action, and for providing technical assistance to countries in need of it. The Commission will also be responsible for coordinating the work of the various bodies of the United Nations system, including the Economic and Social Council, the General Assembly, the Secretariat, and the various regional commissions. The Commission will be supported by the Office of the High Commissioner for Women, which will be established in New York. The Commission will be the central body for the advancement of women in the United Nations system.

all persons in general (Article 1 of the Constitution) and the right to life (Article 2 of the Constitution).
