

F.A.Q.

“How do I report that my trash and or recyclables were not collected?”

If you placed your trash and recyclable container(s) at the curb and it was not collected, the reason may or may not be based on an issue perceived by the collection contractor as being in violation of an ordinance(s) pertaining to proper placement of the item(s) at curbside for collection.

If this occurs, please call 856 783-7400. If no one is available to take your call, please leave a message including your name, address, and a return telephone number. Once received, you will be contacted, and the issue will be resolved.
